

TC ID	Module	Test Scenario	Test Data / Input	Expected Result	Status
TC-01	Registration	Register with valid email and password	user@gmail.com, Password123	Account created successfully	Pending
TC-02	Registration	Register with existing email	Existing email	Error: "Email already exists"	Pending
TC-03	Registration	Register with password less than 8 characters	abc123 (6 chars)	Validation error displayed	Pending
TC-04	Registration	Register with invalid email format	userATgmail.com	Validation error: invalid email format	Pending
TC-05	Login	Login with valid credentials	Valid email/ password	User logged in successfully	Pending
TC-06	Login	Login with incorrect password	Wrong password	Invalid email or password	Pending
TC-07	Login	Login with unregistered email	Unknown email	Invalid email or password	Pending
TC-08	JWT Authentication	Access protected endpoint with valid token	Valid JWT token	HTTP 200, resource returned	Pending
TC-09	JWT Authentication	Access protected endpoint without token	No JWT	HTTP 401 Unauthorized	Pending
TC-10	JWT Authentication	Access protected endpoint with expired token	Expired JWT	Session expired message	Pending
TC-11	Preference Management	Save user preferences	Theme, Font settings	Preferences stored in database	Pending
TC-12	Preference Management	Load preferences on startup	Existing user	Saved settings automatically applied	Pending

TC ID	Module	Test Scenario	Test Data / Input	Expected Result	Status
TC-13	AI Simplification	Simplify valid selected text	Paragraph text	Simplified text returned according to selected simplification level	Pending
TC-14	AI Simplification	Simplify empty text selection	Blank text	Validation error shown	Pending
TC-15	AI Simplification	Submit text exceeding 5000 characters	Large paragraph (>5000 chars)	Request rejected with error	Pending
TC-16	AI Simplification	Verify cache functionality	Previously simplified text	Cached response returned faster and no new AI API call triggered	Pending
TC-17	Usage Limit	Exceed daily simplification quota	>50 requests/day	Quota exceeded message displayed	Pending
TC-18	Bionic Reading	Enable Bionic Reading Mode	Toggle ON	First half of each word becomes bold	Pending
TC-19	Bionic Reading	Disable Bionic Reading Mode	Toggle OFF	Original text restored	Pending
TC-20	Bionic Reading	Apply Bionic Reading on AI-simplified text	Simplified text + Bionic toggle ON	Bionic formatting applied to simplified content	Pending
TC-21	Focus Mode	Enable Focus Mode	Click Focus Mode	Ads, sidebars, popups hidden	Pending
TC-22	Focus Mode	Disable Focus Mode	Click Focus Mode again	Original page layout fully restored	Pending
TC-23	Font Management	Apply OpenDyslexic Font	Font Toggle ON	Entire page uses OpenDyslexic font	Pending
TC-24	Theme Management	Change theme preference	Dark / Cream / Yellow-on-Black	Theme applied instantly and saved	Pending
TC-25	Cloud Sync	Sync preferences across devices	Change settings on Device A	Same settings appear on Device B automatically	Pending

TC ID	Module	Test Scenario	Test Data / Input	Expected Result	Status
TC-26	Cloud Sync	Offline fallback – load cached preferences	Device with no internet	Last synced settings applied from local cache	Pending
TC-27	OAuth Authentication	Login using Google Account	Valid Google Account	User logged in successfully and account linked/created	Pending
TC-28	Authentication	Logout User	Logged-in user	Session terminated successfully and tokens cleared	Pending
TC-29	Preference Management	Update Theme/Font Preferences	New theme and font settings	Updated settings saved and reflected immediately	Pending
